

***The electric sitar comes from the factory setup for string gauges 9-42 but other gauges may work fine. Tuning from the factory is a "drop D". You may prefer a DADGAD or even standard tuning.***

***The 6 sympathetic strings are tuned to 5<sup>th</sup> interval drones, which are as follows from lowest/longest string to highest/shortest string.***

***D*** (same as 4<sup>th</sup> string "D")

***A*** ascending

***D*** ascending

***D*** (same as previous note)

***D*** (same as previous note)

***A*** ascending
