

Warbler, a pitch shifting vibrato unit

Revibe, 6G15 reverb + 6G12 vibrato

(New) PeeWee Hammond (AO-44 conversion)

Odds and ends...

- [The Intruders](#), first high school band in '66
- [Sunn Sorado](#), first homebrew, trade school project in '68
- ['76 Brown Papers](#), ambitious project from the past
- [The gear](#), most of it anyway!
- [Lyrics collections](#), some of my favorites
- [My Visio shapes](#), collection of all the custom shapes seen in my layout drawings

On the Drawing Board...

- [Hoffman AB763](#), with 6G16 bias modulating tremolo, schematic and layout
- [Hoffman AB763](#), single channel with reverb and no tremolo

- [AB763 Deluxe Lite](#), normal channel only
- [Marshall Dual 50](#), a 50 Watt Marshall with JMP 1987 (Plexi) preamp and JCM-800 2204 preamp
- [Vox AC-15](#), original 1960 schematic but with my Marshall/Fender style layout.
... And here's the single long board version... [VAC15_LB.pdf](#)
- [My Amp Scrapbook](#), a collection of useful add-ons and small circuits
