Hammond I66E36 Added. Brown Bias Wires from TO24 Insulated and tucked away
 Hammond supply is 36 vac. Couldn't clear the red 20vac at TP24 from the pdf

47 ohms are on the BJ Tube Board

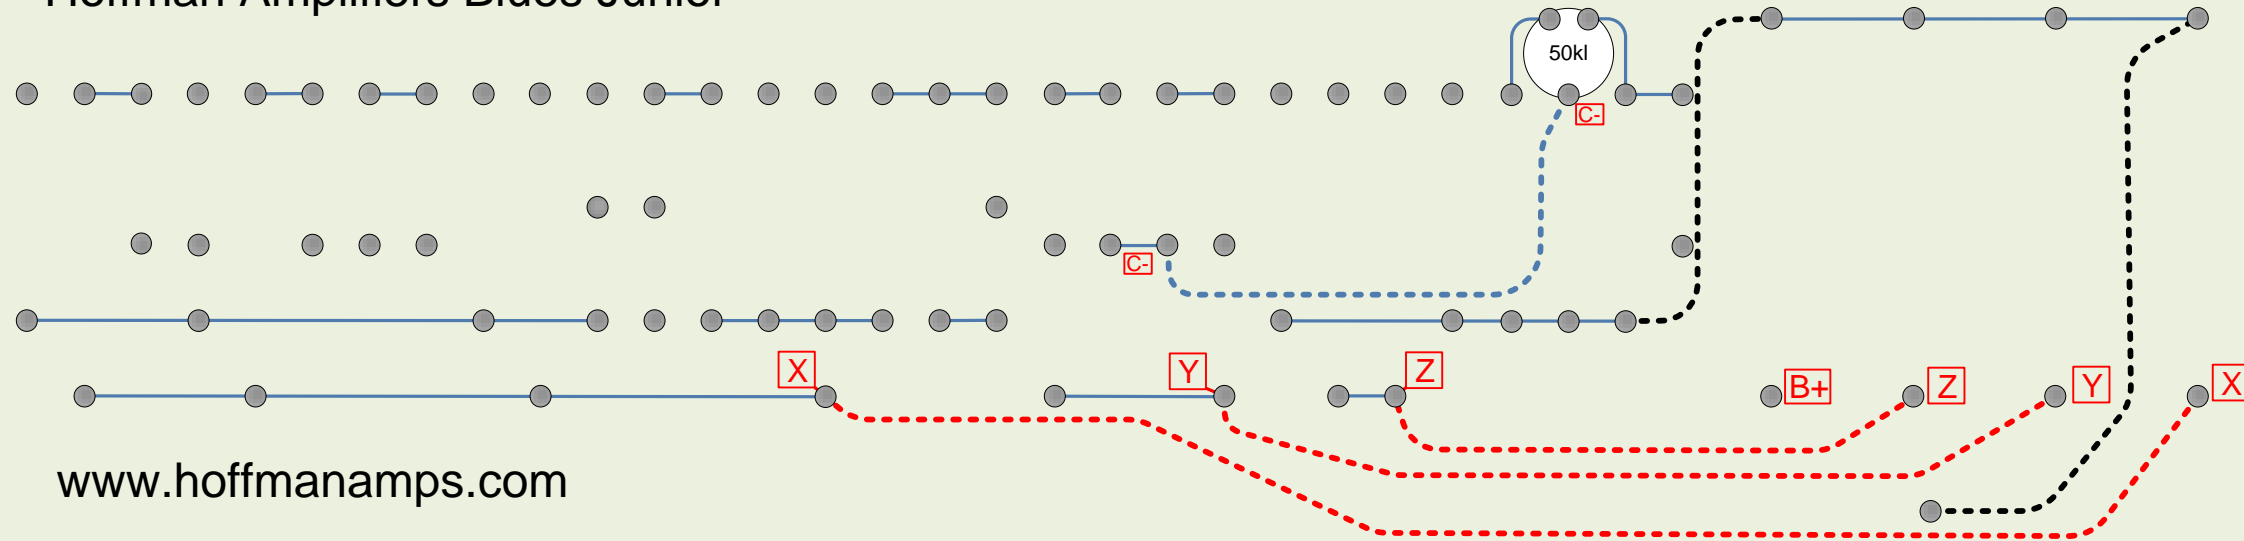

I am disconnection the Au and line out jacks for simplicity at this point.

Bias set at 43 mA based on sound and feel for now.

Vallis Enterprises, Inc.

8.2.15 Ver2 Corrected Schematic
