

Stancor PC-8409
T1 700VCT @ 70mA, 5V @ 3A, 6.3V @ 3A

Notes:

This design is loosely based on a 1948 Valco
Audio output power is approximately 10WRMS
All measurements: Line Voltage = 120VRMS, no signal applied.
All resistors are 500mW, unless otherwise noted.
Capacitors C9a,b,c; are a single FP type electrolytic.
OT is Edcor GSXE-15-2.5K-4
PT is Stancor PC-8409

First prototype constructed circa October, 2007
Prototype cabinet, 24" x 24" x 10", Birch Ply.
Prototype used: 2' x 10" Fender 8 Ohm.
