

Pin	V1	V2
1		
2		
3		
4		
5		
6		
7		
8		
9		

NOTES:

- 1) All resistors 1W carbon film or MF, UON.
- 2) All capacitors in Farads.
- 3) All coupling caps are 250VWVDC or greater.
- 4) Tune R8 for ~11W calculated V2 plate dissipation.
- 5) Mount T1 toriod to chassis with hardware and washers provided by Antek.
- Refer to original Selmer schematic for Notes 6-9.**
- 6) Selmer plan was direct to mains - therefore R9,10,11 not needed.
- 7) R12,13,14,15,16 are not in original Selmer plan - Added for modernization.
- 8) T2 in original Selmer plan omitted.
- 9) T3 added for code compliance & C1 omitted as not needed with grounded chassis and mains isolation.
- 10) PL1 Neon Lamp assembly has internal series resistor - Suggested part is Shin Chin (SCI) R9-40N4-05-R
