

NOTES:

- 1) All resistors 1W unless otherwise noted - Composition is builders choice.
- 2) Power and output transformers are ClassicTone 40-18086 and 40-18087.
- 3) Power and output transformers can be substituted with Hammond 300BX and Hammond 1650NA
- 4) Choke L1 is ClassicTone 40-18059 20 H 100mA; DCR 690 - Can use any part with 10 - 20H => 50mA.
- 5) Upper channel is based on a Deluxe TMB and lower is based on a 2204mkII.
- 6) Not switchable for 15W/7W power as the parent amp is.
- 7) Presence control works for both channels.
