

Notes:

This design is loosely based on a 1948 Valco
Audio output power is apporximately 10WRMS
All measurements: Line Voltage = 120VRMS, no signal applied.
All resistors are 500mW, unless otherwise noted.
Capacitors C15a,b,c; are a single FP type electrolytic.
OT is Edcor GSXE-15-2.5K-4
PT is Stancor PC-8409

First prototype constructed circa October, 2007
Prototype cabinet: 24" x 24" x 10", Birch Ply.
Prototype used: 2 x 10" Fender 8 Ohm.
